DETAILED ACTION

1. The cancellation of claims 3 and 5-11 has been acknowledged.
2. Claims 1, 2, and 4 are allowable.
3. This application is in condition for allowance except for the following formal matters:
4. This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR § 1.821(a)(1) and (a)(2). See, for example, page 27, line 14. However, this application fails to comply with the requirements of 37 CFR § 1.821 through 1.825 because page 27, line 14, contains an amino acid sequence with sequence length that is equal to or greater than 4 amino acid molecules and said sequence does not have a SEQ ID No cited along with the sequence in the specification. Applicants are also reminded that a CD-ROM sequence listing submission may replace the paper and computer readable form sequence listing copies. Applicant(s) are required to submit a new computer readable form sequence listing, a paper copy for the specification, statements under 37 CFR § 1.821(f) and (g), if there is a need to list additional sequences in the listing. Applicant(s) are given the same response time regarding this failure to comply as that set forth to respond to this office action. Failure to respond to this requirement may result in abandonment of the instant application or a notice of a failure to fully respond to this Office action.
5. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
6. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
